JOHNAY BAILEY

Washington, DC 20024 | 215-687-0138 | johnaybailey@yahoo.com

PROFESSIONAL SUMMARY

Patient Care Technician, NICU Technician, and phlebotomy-certified healthcare professional with 3+ years of acute-care hospital experience. Experienced in neonatal intensive care, hospital float-pool assignments, medically complex patients, venipuncture, patient observation, vital signs, EKGs, blood glucose monitoring, bladder scanning, specimen collection, mobility assistance, wound care support, IV removal, and patient transport. Adaptable to high-acuity environments with a strong focus on patient safety, compassionate care, and interdisciplinary teamwork.

CLINICAL SKILLS

NICU & acute-care support | Venipuncture/phlebotomy | Vital signs | EKGs | Blood glucose testing | Bladder scans | Specimen collection | Patient observation | Mobility & transfers | Patient transport | ADLs | Wound care support | Peripheral IV removal | Admissions/discharges | Rapid-response support | Infection prevention

PROFESSIONAL EXPERIENCE

NICU TECHNICIAN — Apr 2026 - Present

Howard University Hospital | Washington, DC

- Provide direct bedside support to neonatal patients under RN supervision in a fast-paced NICU environment.
- Observe patients closely and promptly report changes in condition, distress, or clinical concerns to nursing staff.
- Assist with patient-care activities, clinical procedures within scope, documentation, family support, and unit workflow.
- Maintain safe, clean, stocked patient-care areas and collaborate with nurses, providers, and respiratory therapists.

NICU TECHNICIAN — May 2025 - Jun 2026

MedStar Georgetown University Hospital | Washington, DC

- Provided direct clinical support to neonatal patients in a high-acuity NICU and communicated changes in condition promptly.
- Assisted nurses with bedside care and procedures within scope while supporting patient safety and infection-prevention standards.
- Collaborated with the interdisciplinary team and provided compassionate support to patients and families.

PATIENT CARE TECHNICIAN - FLOAT POOL — Apr 2023 - 2025

Jefferson Abington Hospital | Abington, PA

- Provided direct care across inpatient units, with frequent assignments to the Heart Failure unit.
- Obtained vital signs and blood glucose readings; performed EKGs, bladder scans, specimen collection, and peripheral IV removal.
- Assisted with wound care, mobility, transfers, ADLs, patient transport, admissions, transfers, and discharges.
- Observed for changes or distress, escalated concerns to RNs, and supported the team during rapid-response situations.

CERTIFICATIONS & CLINICAL TRAINING

Phlebotomy Certification | **Basic Life Support (BLS), American Heart Association - Current**

Additional training: Foley catheter insertion, IV insertion/saline lock placement, and splinting.

EDUCATION

Bachelor of Science in Nursing - Chamberlain University — In Progress

Associate in Health Studies - Community College of Philadelphia — May 2025
